

# Soft Drink Savings Campaign

Saving energy is very refreshing! Help the Phillies encourage customers to reduce, reuse, repair, and recycle by designing a soft drink cup with a message.

Read the "Energy Efficiency" text in the *Intermediate Energy Infobook*. Around the outside of the cup, write five tips or suggestions for ways to save energy by reducing, reusing, repairing, and recycling. Then, decorate the cup. Include symbols and pictures if you want. Encourage the sipper to reduce, reuse, repair, and recycle.
